Portfolio: kulsumtimol10.github.io

SUMMARY

Full-stack developer with production experience building responsive React and TypeScript front ends and secure REST APIs with Node.js, NestJS, Firebase and Google Cloud, most recently as a Software Developer Co-op at Needlist.org. Seneca Polytechnic Business IT graduate (GPA 3.8) with a systems, networking and security background; comfortable in Agile, Git and CI/CD workflows.

TECHNICAL SKILLS

Frontend: TypeScript, JavaScript (ES6+), React, Redux (RTK Query), TanStack, HTML5, CSS3, Figma
Backend and data: Node.js, NestJS (Fastify), Express, REST APIs, Firebase (Firestore, Auth), MySQL, Python (NumPy, pandas)
Cloud and DevOps: Google Cloud (gcloud SDK), AWS and Azure fundamentals, Git / GitHub, CI/CD
Testing and process: Jest, React Testing Library, Postman, code reviews, Agile / Scrum, technical documentation
Systems and networking: Linux, shell scripting, Windows Server, Active Directory, VMware, TCP/IP, VLANs, NAT, ACLs, Cisco

EXPERIENCE

Full-Stack Software Developer Co-op · Needlist.org, Remote, ON — Jan 2026 – Aug 2026

- Built and maintained full-stack features for a live web platform with TypeScript, React, Node.js and Express
- Designed and integrated REST APIs and managed Firebase (Firestore and Authentication) for secure, role-based data access
- Wrote unit and integration tests with Jest and validated APIs with Postman
- Fixed front-end and back-end issues to improve performance and reliability; worked in Agile with Git and wrote technical docs

Full Stack Developer · Trueline Solution, Surat, India — Dec 2023 – Nov 2024

- Maintained and monitored enterprise web applications for availability, troubleshooting issues and resolving service tickets
- Documented workflows, incidents and procedures, and supported user onboarding and access management
- Worked with cross-functional teams to implement system enhancements

Teaching Assistant (Volunteer) · Islamic Center of Oshawa, Oshawa, ON — Jan 2025 – Aug 2025

Supported students and staff with technical and academic issues, and coordinated communication across teams.

PROJECTS

SecureVault · group project · React, Node.js, Express, MySQL — GitHub

- Zero-knowledge password manager: AES-256-GCM encrypted vault, hashed master passwords, lockout, 2FA and JWT sessions
- Engineered the REST API for secure data management and designed a normalized MySQL schema (11 tables, 3NF)

Microservices storefront on AWS · team of four · Docker, ECS Fargate, DynamoDB, Lambda, Terraform — GitHub

- Contributed to an Amazon-style store built as order, product and user microservices, each with its own DynamoDB table
- Event-driven sign-up (SQS, Lambda, SNS), React SPA with Cognito auth, Terraform deployed by keyless GitHub Actions

Movie Recommendation System · Python, scikit-learn, Streamlit, TMDB API · Machine-learning recommender; improved accuracy by 20% through feature engineering

Grocery Store Mobile App · Flutter, Firebase · Cross-platform app with inventory, orders, user authentication and admin product management

E-Commerce Website · JSP, Servlets, MySQL · Authentication, product management and analytics dashboards; optimized database queries for reporting

Image Editing Website · PHP, Python, MySQL · Browser-based image editor with a Python processing back end

EDUCATION

Graduate Certificate, Business Information Technology · Seneca Polytechnic, Toronto, ON — Jan 2025 – Aug 2026
GPA 3.8 / 4.0 · Labs: Windows Server and Active Directory, Linux administration, secure networking (VLANs, NAT, OSPF, ACLs)

Bachelor of Science, Information Technology · SRKI, Sarvajanik University, Surat, India — Aug 2021 – May 2024
First Class with Distinction, CGPA 9.13

CERTIFICATIONS

Networking Basics · Cisco, 2025
Introduction to Cybersecurity · Cisco, 2025
Cybersecurity Fundamentals · IBM, 2025
Fundamentals of Agile Project Management · PMI, 2025
Fundamentals of Predictive Project Management · PMI, 2025
AI Fundamentals · Google, 2026
