KULSUM TIMOL

Toronto, ON | aarzootimol@gmail.com | linkedin.com/in/kulsumtimol

PROFILE

Full-stack developer with hands-on production experience in React, TypeScript, Node.js and NestJS, most recently as a Software Developer Co-op at NeedList.ORG. Builds responsive front-end features and secure REST APIs integrated with Firebase and deployed on Google Cloud Platform. Recent Seneca Polytechnic Business IT graduate (GPA 3.8) comfortable in Git-based Agile and CI/CD workflows.

SKILLS

Technical Skills

- **Systems & Cloud:** Windows Server, Active Directory, Group Policy, User provisioning and access control, Linux (Ubuntu), shell scripting, VMware virtualization, Basic Azure & AWS cloud
- **Networking & Security:** TCP/IP, IPv4 addressing, subnetting, VLANs, NAT, DHCP, ACLs, Cisco routers & switches (Packet Tracer + lab devices), Network troubleshooting & connectivity diagnostics
- **Programming & Data Analysis:** TypeScript, JavaScript, React, Node.js, Express, HTML, CSS, RESTful APIs, JSON, Firebase (Firestore, Authentication), SQL / MySQL, Git & GitHub, Postman (API testing), Jest (unit and integration testing), Python (NumPy, pandas, Matplotlib)
- **Tools & Software:** Microsoft 365 (Word, Excel, Outlook, Teams, OneDrive), SharePoint, Figma
- **Frontend:** TypeScript, JavaScript (ES6+), React, TanStack, Redux (RTK Query), HTML5, CSS3, Responsive Design
- **Backend & Data:** Node.js, NestJS (Fastify), Express, RESTful APIs, Firebase (Firestore, Authentication), SQL/MySQL, Python
- **Cloud & DevOps:** Google Cloud Platform (gcloud SDK), Git/GitHub, CI/CD, AWS/Azure fundamentals
- **Testing & Workflow:** Jest, React Testing Library, Postman, Code Reviews, Agile/Scrum, Technical Documentation

Soft Skills

- Strong written and verbal communication skills
- Analytical problem-solver with attention to detail
- Ability to troubleshoot and resolve technical issues efficiently
- Team-oriented and adaptable in fast-paced environments
- Organized with strong documentation and reporting abilities
- Bilingual: English, Hindi, Gujarati

WORK HISTORY

Full-Stack Software Developer Co-op *| Needlist.org, Remote, ON | Jan 2026- Aug 2026*

- Develop and maintain full-stack web application features using TypeScript, React, Node.js, and Express
- Design and integrate RESTful APIs and manage Firebase (Firestore & Authentication) to support secure, role-based data access
- Write and execute unit and integration tests using Jest and validate APIs using Postman
- Troubleshoot and resolve frontend and backend issues to improve system performance and reliability
- Collaborate in Agile workflows using Git and contribute to technical documentation

Teaching Assistant Volunteer *| Islamic Center of Oshawa, Oshawa, ON | Jan 2025- Aug 2025*

- Provided front-line support to students and staff, resolving technical and academic issues
- Assisted with coordination and cross-team communication

Full Stack Developer *| Trueline Solution, Surat, India | Dec 2023 – Nov 2024*

- Maintained and monitored enterprise web applications to ensure system performance and availability
- Assisted in troubleshooting technical issues and resolving service tickets
- Documented workflows, incidents, and technical procedures to improve operational efficiency
- Supported user onboarding and access management processes
- Collaborated with cross-functional teams to implement system enhancements

PROJECTS

SecureVault – Secure Password Management System

- *Built a zero-knowledge password manager with hashed master passwords, account lockout and JWT-based sessions.*
- *Engineered AES-256-GCM encryption for credential storage and a RESTful API for secure data management; designed a normalized MySQL schema (11 tables, 3NF).*

E-Commerce Website *| JSP, Servlets, MySQL*

- Built a web application with authentication, product management, and analytics dashboards
- Optimized database performance to enhance reporting and user experience

Movie Recommendation System *| Python, scikit-learn, Streamlit, TMDB API*

- Developed and documented a machine learning–based recommendation engine using Python
- Improved accuracy by 20% through feature engineering and iterative testing

Grocery Store Mobile Application *| Flutter (Dart), Firebase*

- Created a cross-platform application with inventory tracking and order management
- Implemented user authentication and admin modules for product management

Additional Projects: Image Editing Website *(PHP, Python, MySQL)*

LAB PRACTICUM EXPERIENCE (SENECA POLYTECHNIC, 2025)

Microsoft Systems & Virtualization/ Linux Administration/ Networking & Security:

- Installed and configured Windows Server environments in VMware; managed Active Directory, users, and group policies
- Performed system administration tasks including file permissions, scripting, and system monitoring
- Configured secure networks (IPv4, VLANs, NAT, OSPF)
- Implemented access control lists and port security
- Troubleshot hardware, software, and connectivity issues in lab environments
- Provided Service Desk-style technical support to peers

EDUCATION

Graduate Certificate in Business Information Technology *| Seneca Polytechnic, Toronto, ON | Jan 2025 - Aug 2026 |* *GPA 3.8/4.0*

Bachelor of Science in Information Technology | *Shree Ramkrishna Institute of Computer Education and Applied Sciences(SRKI), Sarvajanik University, India | Aug 2021 - May 2024 | Graduated First Class with Distinction, CGPA 9.13*

Additional Certifications and Credentials

- Networking Basics – Cisco (2025)
- Cybersecurity Fundamentals – IBM (2025)
- Introduction to Cybersecurity – Cisco (2025)
- Fundamentals of Predictive Project Management – PMI (2025)
- Fundamentals of Agile Project Management – PMI (2025)
- Google AI Fundamentals (2026)
